

## SQL programming HW2

Xiaolin Li

Observation

- a) The movie "IRON MAN" has been successfully added
- b) The category of the movie "Fight Club" has not been changed
- c) The category of the movie "Bruce Almighty" was changed to 'Drama'
- d) The insertion was not completed with "Error code 1644: Married check failed". This indicates that at least a star of this couple is married.
- e)1. The insertion was not completed with "Error code 1644: An action movie has to have at least \$10000 office box
- 2.The tuple was inserted successfully (two tuples in (e) are operated separately. Otherwise the second won't work because there is an error with the first insertion)
- f) The insertion was not completed with "Error code 1644 Error. A comedy movie's office box could not exceed 1e9."
- g) The divorce date of couple #6 has been changed to 2005-06-25 upon the insertion
